由澳大校友事務辦公室及學生事務處合辦的「友生啟導計劃」於2009年初推出，計劃主要是以校友作為啟蒙導師，與學生分享個人的工作經驗和人生閱歷，學生除了可以加強書本以外的知識和眼光，校友亦可通過活動回饋母校並維繫與母校的聯絡及溝通。

The Alumni Mentorship Scheme was launched by the Alumni Affairs Office and the Student Affairs Section in early 2009. Alumni were invited to be mentors and shared their life and working experience with selected student mentees. The program helped to open up the students' eyes and enrich their general knowledge further than the knowledge attained from their books. On the other hand, the alumni participating in the program can contribute through the scheme and strengthen communication with their alma mater.

在推出第一屆活動時，校友事務辦公室採取試辦形式，向港、澳兩地校友會邀請了九位啟蒙導師參加，報名學生多達八十人。活動包括開幕儀式、參觀香港校友公司及閉幕儀式。澳門大學（香港）校友會現任主席及前主席亦分別於開幕及閉幕儀式進行講座。其中四位參加的同學於第一屆閉幕儀式當日更獲頒發傑出表現獎。

The office launched the program by inviting 9 alumni from University of Macau Alumni Association and University of Macau (Hong Kong) Alumni Association. More than 80 students applied to join the program. The program included the Opening, a visit to the Hong Kong office of an alumnus and the Closing Ceremony. Both the current and former Chairman of the University of Macau (Hong Kong) Alumni Association were invited to talk on our behalf at the Opening and Closing Ceremony respectively. Four mentees were awarded as Outstanding Mentees at the Closing Ceremony in this batch.

■ 學生於2009/2010友生啓導計劃開幕典禮討論「澳門世遺遊」的行程
Mentees discuss the itinerary of the Macau Heritage Tour at Opening Ceremony of the 2009/2010 Alumni Mentorship Scheme

由於活動深受歡迎，在推出第二屆時，我們決定公開招募啟蒙導師，讓更多的校友及學生可以參與。是次不但成功招募了四十位校友作為啟蒙導師，報名參加的學生更超過一百二十人。活動包括開幕儀式、「澳門世遺遊」及閉幕儀式。開幕儀式以輕鬆的集體遊戲及茶聚形式介紹啟蒙導師與學生認識。「澳門世遺遊」活動則邀請了「澳門文物大使協會」派出大使沿途介紹不同的景點及有關的歷史，我們更於活動當日舉行攝影比賽。每位參與的啟蒙導師及學生均於第二屆閉幕儀式獲發一張證書，其中九位同學更獲頒發傑出表現獎，攝影比賽獎項亦於當天頒發。

With the success we have achieved in the first trial of the program, we decided to open the application for mentors to all alumni at the second Alumni Mentorship Scheme. More than 40 alumni and over 120 students applied to join. This batch included the Opening Ceremony, the Macau Heritage Tour and the Closing Ceremony. The Mentors were introduced to mentees in a friendly atmosphere during the Opening Ceremony which was composed of games and refreshments. For the "Macau Heritage Tour", we invited the Macao Heritage Ambassadors Association to be the tour guides. To add fun to the tour, a photo competition was organized on the day of the tour. At the Closing Ceremony, every mentor and mentee were given certificates for joining the program. Nine mentees were awarded as Outstanding Mentee and the champion of the photo competition was announced as well.

感謝澳門大學校友事務辦公室給予我機會成為「2009友生啟導計劃」及「2009/2010友生啟導計劃」的啟蒙導師。說實的現今的澳門大學畢業生在澳門的勞工市場上找工作並不容易，除了要面對愈來愈多的澳門居民擁有大學或以上學歷，更要面對日漸增多的高學歷和富工作經驗的外來勞工，與這群人在勞動市場裡爭奪一些職位，因此在以往兩年的「友生啟導計劃」裡我經常與學弟妹們探討他們的職業取向和發展計劃。由於我不是澳門居民，自問對澳門的勞動市場情況及政府的勞動法了解未必比學弟妹們深，但憑藉我在幾所大的美資機構任人事及行政主管和任職高等教育界的多年工作經驗，把一些與人事及行政部門相關的工作經驗和面試技巧、選科擇業的竅門與學弟妹們分享，希望能啟導他們日後的發展。

岑麗珊 LISA

由校友事務辦公室及學生事務處所舉辦的「友生啟導計劃」已經進入第二年，而我有幸參與這兩年啟蒙導師的工作。

作為校友，我非常高興可以參與這個計劃，既可使已經離校的校友們有機會再次參與母校的活動，與母校保持緊密的溝通，同時亦可與我們的學弟和學妹們分享大家的生活經歷與想法。

與其說校友們是啟蒙導師，倒不如說是大學給予校友一個與現時學弟和學妹們建立朋友關係的機會。校友們把離校後的工作狀況、生活經歷與學生分享；同時學生亦會把現時校內的最新情況，以及現時大學生的生活與校友溝通，彼此之間互相溝通，分享大家不同的生活體驗。

「友生啟導計劃」在這兩年之間確實有非常大的躍進，由第一年十多人參加到今年過百參加者，而今年更增加不同類型的活動，令校友與學生們有更多的接觸機會。多謝校友事務辦公室和學生事務處的努力與悉心的安排，期望明年亦有機會參加這個有意義的活動。

Prof. Simon Ho, the Vice Rector (Academic Affairs) of UM, awards the certificates to the 4 outstanding mentees at Closing Ceremony of the 1st Alumni Mentorship Scheme

參加「2009友生啟導計劃」，我的目的是與澳大事業有成的校友交流，提高自己專業知識的認識，分享他們成功的經驗，聽取校友們對於大學生活以及學習的建議。隨著這個計劃的圓滿結束，我不僅僅達到了最初的目的，我的啓蒙導師－鄭先生，還專程駕車帶我們到他的公司參觀，並且詳細的講解了各個部門的職能，親身的體驗工作場所的經歷是相當難得的，可以讓我們為未來的工作做好準備。在此非常感謝我的啓蒙導師的全力支持與幫助，同時希望能有更多的同學能從此計劃中獲益！

黃新政 HUANG XIN ZHENG

參加「友生啟導計劃」最令人受益的是畢業的校友們幫助我打開了一扇窗，透過它，我們看到了他們曾經的輝煌與辛勞，看到了他們而今為之奮鬥的事業，看到了社會交往的豐富與多樣，甚至看到了自己將來閃現的身影。更重要的是他們刺激了我去思考和行動，因而常常會有一些意外的發現與收穫。

其實，參與這個計劃也是在為建立一個屬於澳門大學校友的聯繫網路，不論是校友還是學生，他們都在這個網路中建立起了彼此間互通互動的橋樑。

王小龍 WANG XIAO LONG

我很榮幸能成為「2009友生啟導計劃」的一員，感謝各位啓蒙導師在百忙中抽空參與，為的就是把自己的經驗和遠見教授給學弟學妹，使我們獲益良多。我的啓蒙導師 - 潘先生 - 一個成功的會計人士 － 雖然身處香港且工作繁忙，但仍堅持抽時間來參加每次的聚會。他不但與我們分享他在會計行業的寶貴知識，令我們更認識自己將來的工作以及該行業的生活方式。從他身上，我們充分體會到面對逆境時，要不屈不撓地堅持及保持對工作的熱誠。潘先生樂意提攜後輩，常常樂於解答大家的疑問。記得在考試前夕，他仍不忘給予我們鼓勵，確實令我十分感動。各位澳大的人員也很體貼學生，在背後默默為我們付出許多努力才令這計劃進行得順利完滿。

陳雅靜 CHAN NGA CHENG
(Mentee)

很慶幸自己可以參與第一屆由校友事務辦公室與學生事務處合辦的「友生啟導計劃」，當我起初得知這一個計劃時，感到很好奇也很新鮮，因為這是我踏入澳大諗書的第二年所知道的其中一個很有意義的計劃。

當我深入去了解這個計劃推行的內容時，發覺到作為一個準畢業生，雖然尚未正式投身社會工作，但可以藉著校友給你的支持和指導，自己可以先裝備好，讓自己具備更多技能以應付日後工作上的挑戰。

在這個計劃中，我從我的啟蒙導師身上學習了很多，也建立了「良師益友」的關係，因為可以親身分享到專業人士的工作規劃、工作經驗、工作成果．．．．．也給我提供了許多寶貴的意見供我參考，讓我可提早知道一些就業前的資訊以及在社會中怎樣培養應有的工作態度。

盼望在今年的「友生啟導計劃」中，可以看到更多的同學參與其中。

The concept of this program is outstanding and is definitely something that helps the students, they can understand more about the society and the actual work environment from people who have been on their paths. Interacting with the mentees has been very interesting as well for an alumnus and it's wonderful to know what the students are worried about – nothing much has changed.

林志成 BUDDY

我參加「2009/2010友生啓導計劃」的原因：第一是為自己設定目標，希望將來能夠自己創業。雖然在大學裏學到了知識，兼職中得到了一些工作經驗，但這是遠遠不夠的。社會是複雜變化的，通過啓蒙導師的互相交流，讓自己在以後的前路能夠有所應用，且少走那些不必要的彎路。

第二是想豐富自己大學的校園生活，認識不同的朋友，拓展自己的人際網絡，大學不單單純粹學習，要多參加些活動，享受大學的生活。我認為這個「友生啓導計劃」對自己未來的發展有更大的幫助！

黃珠 HUANG ZHU

From the mentor's point of view, it provides a chance to open the eyes, both for career and for life, of participating mentees. On the other hand, it gives mentors a more comprehensive understanding of enrolled UM students as well as their corresponding generation. I would definitely recommend it to my friends simply because it is meaningful and as a mentor, I learn a lot too.

ALEXANDRE C. WONG
(Mentor)

I think I have attained all of my targets like increasing belonging to Macao and University of Macau, getting access to contacting society, meeting more local people and extending my network. Though this program, I find most of alumni are outstanding and kind, which makes me proud of UM and keep close to my mentor. In addition, I know more issues about Macao, such as its history, current political issues and business situation. Apart from the advantages I mentioned above, it is a good way to nourish undergraduate students from an off campus perspective, especially something that students can't learn in classroom, such as how to build the network in society. Besides, this program can enhance UM's influence over Macao and other areas in the Greater China.

「2009/2010友生啓導計劃」使我從啓蒙導師身上學到了很多知識，他有著豐富的閱歷，可以給我很多人生的建議。每次我發電郵給他，他都及時回覆，而且還很努力地配合我們的時間約我們聚會，面對面地了解我們的問題。曾經我經歷過一段人生的抉擇，當時我不知道該放棄學業還是繼續升學。啓蒙導師很及時地給我建議和幫助，他對我的鼓勵和建議，使我的目標更加明確了。他還建議我看一些書藉並教導我看完那些書藉後該怎麼做。根據我的核心目標，他一步步地給我指導。介紹一些他欣賞的人給我認識並讓我多向他們學習，同時他也會分享自己的一些經歷及想法給我們。我在啓蒙導師身上學到很多東西，相信以後他仍然會是我的好朋友。

朱美虹 CHU MEI HONG

I am interested in joining this program because I believed that it can provide me a platform to learn more things that I can't learn from our current curriculum. Those things I believe are also vital to my future development. Since the mentors in the program are experienced and specialized, they have already acquired certain knowledge and information that we can't easily obtain. Their ideas, suggestions, and comments are very helpful to us. Thus, I would like to share my thoughts and problems with my mentor and to take their advice and learn from them for better planning of my future. In general, what I have gained in this program is already beyond my expectation.

千載的機遇　夢想的騰飛
New Opportunities for Flying Higher

創建空間展翅騰飛

澳門大學（澳大）新校區於2009年12月20日隆重奠基，新校區標誌著澳門高等教育邁向新的紀元，也實現了澳大多年來渴望展翅騰飛的願望和夢想，澳大終於迎來了千載一時的發展機遇！新校區提供有利於創新學習及科研的環境，對於推進澳門高等教育事業的發展具有深遠的影響。在新校區更廣濶的空間裡，澳大將有足夠的空間進一步實踐精品教育、優秀師資、卓越科研和高效環保的辦學理念，為澳門和國家培養優秀的人才。

Aiming higher in a new era

The groundbreaking ceremony for the new campus of the University of Macau (UM) was held on 20 December 2009. The start of construction of the new campus, which had been a long-cherished dream of all UM members, signalled a new era in the development of Macao's higher education and presented UM with unprecedented development opportunities. The new campus will offer an ideal environment conducive to innovative learning and research and will thus have a far-reaching impact on the development of Macao's higher education. With a larger campus, UM will be able to further pursue its educational ideals and realize elite education, outstanding faculty, research excellence and environmental efficiency, thereby nurturing more outstanding graduates for Macao and China.

Library (Design Plan)

打造世界一流大學

國家主席胡錦濤與澳門特別行政區行政長官崔世安親臨主持奠基儀式。新校區將貫徹落實胡錦濤主席對澳大寄予的“五個一流”期望：一流設施、一流師資、一流人才、一流成果的一流大學。澳大將堅持不懈，實踐胡錦濤主席贈予澳大“愛國愛澳、博學篤行”的八字題辭，打造成為世界一流的大學，培養志向遠大、具廣闊視野、為國家和澳門建設作出卓越貢獻的優秀人才。

Building a world-class university

President of the People's Republic of China Mr. Hu Jintao and Chief Executive of Macao SAR Dr. Chui Sai On officiated at the groundbreaking ceremony for the new campus. UM will seize the opportunity presented by the new campus to develop and implement concrete measures aimed at fulfilling President Hu's high expectations for the University which were summarized by five "top" standards: Becoming a top university with top facilities, a top faculty team, top graduates, and top achievements. All UM members will follow President Hu's instructions conveyed in his inscription: "love China, love Macao, learn extensively, and practice earnestly" in order to develop UM into a world-class university and nurture graduates with lofty aspirations and international perspectives that will make outstanding contributions to Macao and China.

隧道連接無需邊檢

新校區預計三年內建成，屆時會按照澳門特別行政區法律實施管轄。新校區位於廣東省橫琴島東部，與澳門一河相連，背倚蔥綠秀美的橫琴山，佔地約1平方公里，比現時的校園約大20倍，可容納約一萬名學生。澳門與新校區之間將興建一條河底隧道連接，從澳門一方可全天候隨時進出校園，沒有邊檢阻隔，非常方便。

學院科目更全面

設立約八個學院，包括文學藝術學院、社會科學學院、科技學院、商學院、法學院、教育學院、生命科學及健康學院等。全面的學科將為澳門中學畢業生提供更多選擇，也為澳門經濟適度多元化培養多方面的專業人才。

住宿式書院制度

引入國際優秀大學採用的「住宿式書院制度」，設立約十至十二個住宿式書院，這將是新校區的一大亮點。書院與學院制度相輔相成，在書院裡，來自不同學科、不同年級的本科生一起學習、競賽、娛樂、生活。由這些活動當中，學生有較多在群體生活中與人互動交流、團隊合作、服務領導的機會，並且在同儕的激勵與合作之下學習自律管理、自主行動、自我成長，達到全人教育的目的。

Connected by a tunnel without border control

Once completed in three years as scheduled, the new campus will come under the jurisdiction of Macao SAR. The new campus, separated from Macao by a waterway, is located in east Hengqin Island, Guangdong Province, with the luxuriant Hengqin Mountain forming a beautiful backdrop. Covering an area of around 1 km^2, it will be nearly 20 times larger than the existing campus and will be able to accommodate approximately 10,000 students. An underwater tunnel will be built to ensure convenient, 24-hour access to the new campus from Macao without going through immigration control.

More faculties to offer more choices for students

Approximately eight faculties, including Faculty of Arts, Faculty of Social Sciences, Faculty of Science and Technology, Faculty of Business Administration, Faculty of Law, Faculty of Education, and Faculty of Life Science and Health, will be established, in order to offer more choices for local secondary school graduates and to nurture professionals in various fields to meet the needs of the moderate industrial diversification of Macao.

Residential college system

The "residential college system" adopted by some of the world's top universities will be introduced in the new campus to complement the faculty system. Ten to twelve residential colleges will be established, which will constitute one of the highlights of the new campus. Every residential college will be inhabited by students of different majors and years of study. Various competitions and recreational activities will be organized to offer students more opportunities to communicate with each other, serve others, strengthen teamwork, and develop leadership skills. Moreover, through peer encouragement and cooperation, students will be able to acquire self-discipline, develop the ability to act independently, and realize personal development. Thus, the objective of "whole person education" can be achieved.

位置圖
Location

開放式科研基地

設三個開放式科研基地，主要研究醫藥、電子及資訊科技，以及能源環保，並將科研成果進行技術轉移及創新產業孵化。這些科研基地應能促成澳大、澳門其他大學、珠三角以至全國各地大學的合作研究，也為粵澳合作及澳門經濟適度多元化創造契機。完善的科研設施，將使澳大在科研創新方面可全力創造卓越成果。

Open scientific research bases

Three open scientific research bases will be established in the new campus, in such areas as medical and pharmaceutical sciences, electronics and information technology, and energy and environmental protection. Efforts will be made to realize technological transfer of research outcomes and incubation of innovative industries. These research bases will not only help enhance joint research efforts between UM and other universities in Macao, the Pearl River Delta, and China, but will also create opportunities for Macao-Guangdong cooperation and industrial diversification of Macao. A complete set of state-of-the-art research facilities will help UM achieve excellence in research innovation.

以人為本的設計

新校區由大中華地區建築設計領軍人物、2010年上海世博會中國館總設計師—何鏡堂院士主持總體設計。整體規劃強調「以人為本」、「可持續發展」、「現代化、信息化」、「園林式佈局」、「揉合中西文化」五個設計原則和理念，務求建造一個適意自在和高效節能的綠色校園。

People-oriented design

Mr. He Jingtang, a recognized leader in architectural design in the Greater China Region, member of the Chinese Academy of Engineering, and chief designer for the China Pavilion for the World Expo 2010 Shanghai, is the chief designer for the new campus. The master plan for the new campus will emphasize the following five principles and concepts: "people-oriented," "sustainable development," "modern and IT-based," "garden-style layout," and "integration of Chinese and western cultural elements" with the aim of building a green, comfortable, efficient and energy-saving campus.

環境育人培優才

優美的環境是陶冶學生情操的園地，有利於激勵學生奮進，啟迪智慧和創意。新校區營造多層次山水園林景觀、寧靜自在的氛圍；孕育優雅的學習和文化環境；強調人與自然的和諧共存，發揮「環境育人」的作用，使學生和老師在理想的校園裡學習和生活。

An environment conducive to education

A beautiful environment will have a positive influence on cultivating students' temperaments, motivating them to study hard, stimulating their creativity, and helping them achieve full potential. A tranquil, comfortable campus with multi-level garden views and an ideal learning and living environment will be built to ensure harmonious coexistence of humans and nature and to bring a positive environmental influence on students and staff.

高效環保　可持續發展

建立一個設備先進，高效率運作和重視環保意識的現代化校園。新校區會加大校園綠化區域，利用再生能源，節能節水，並預留發展空間，實現校園建設的可持續發展。新校區將繼續發揮現有校園的先進電子化水準，打造智慧校園，提升教學、研究、管理、學習和生活上的效率。

Environmental efficiency and sustainable development

The new campus will be a modern, efficient, and environmentally conscious one with advanced facilities and much larger green areas. Renewable energy will be used whenever possible to save energy and water. Sufficient land resources will be reserved to ensure sustainable development. Advanced technologies will continue to be applied to create a smart e-campus, thus enhancing the efficiency in teaching, research, administration, study, and daily life.

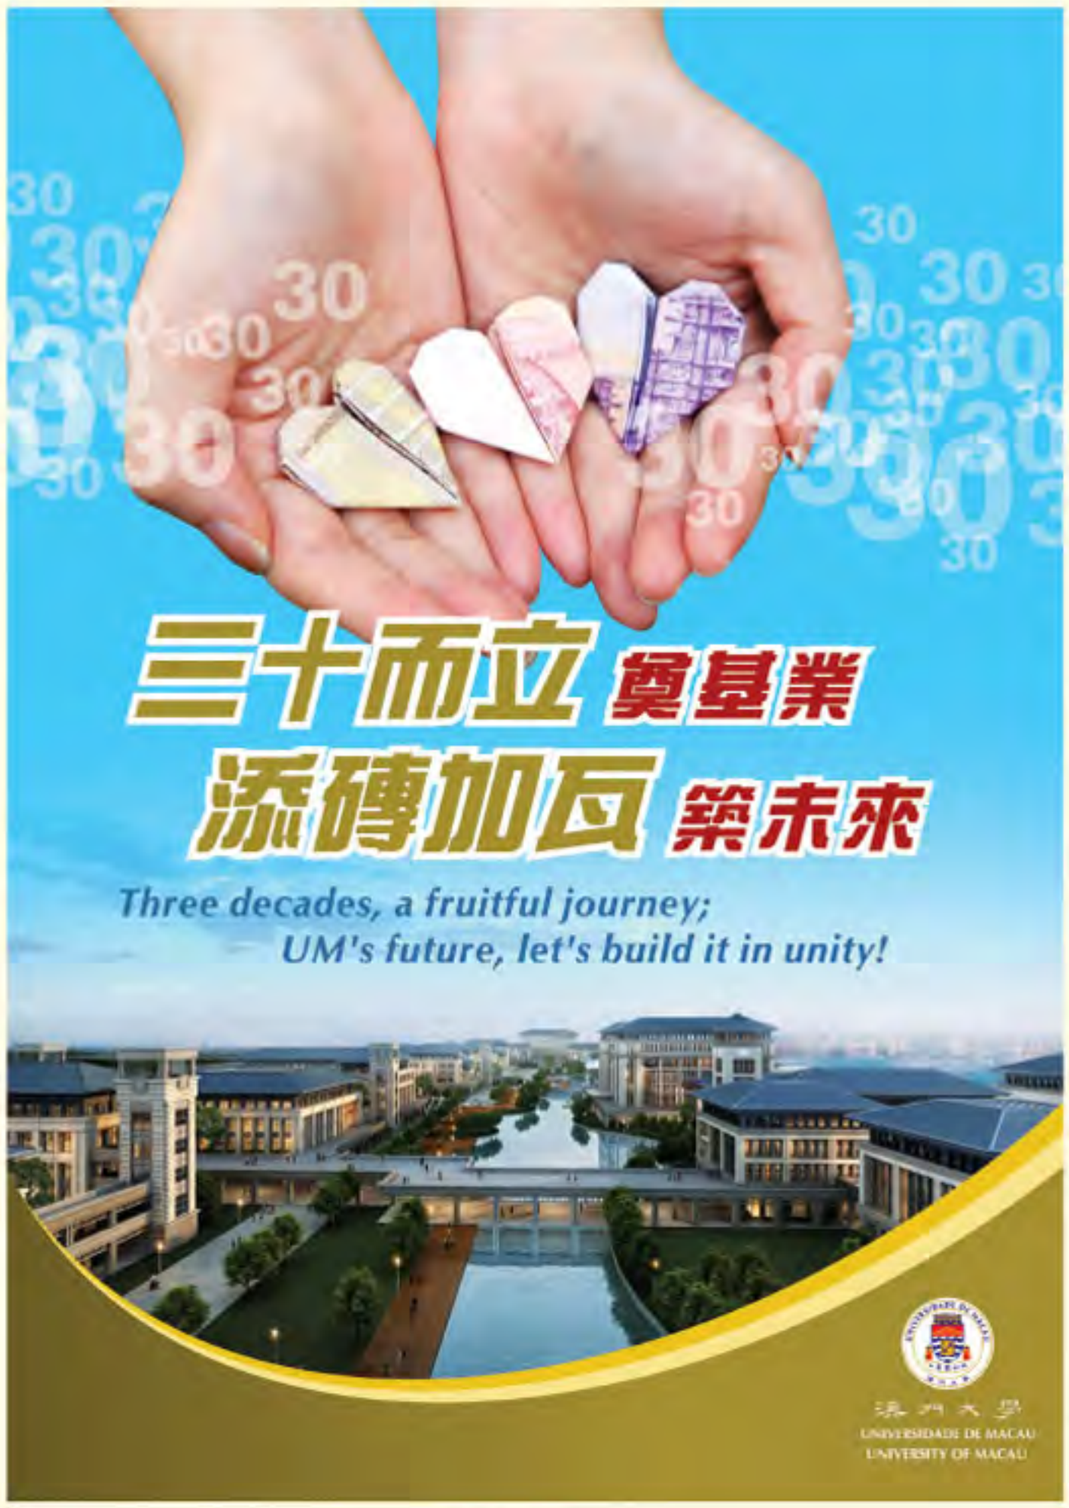
澳大三十週年校慶籌款拉開帷幕

UM Kicked Off "Fund-Raising for the 30th Anniversary" Campaign



澳門大學（澳大）明年將迎來三十週年校慶，新校園也為大學帶來展翅騰飛，實踐教育使命的契機。在此重大里程碑的時刻，澳大啟動以"三十而立奠基業，添磚加瓦築未來"為口號展開校慶籌款活動，冀引起更多校友、學生、家長、教職員及關心澳大的公眾、組織及企業等關注、支持和參與籌款。捐貲大學是對教育事業的一項長遠投資，金額不分多寡，冀共同將澳大打造成為具有區域特色的世界一流大學。

2011 will mark the 30th anniversary of the University of Macau (UM). The new campus will bring about unprecedented opportunities for UM to better fulfill its educational missions. To celebrate these major milestones, UM has kicked off a fund-raising campaign whose slogan is, "Three decades, a fruitful journey; UM's future, let's build it in unity." The slogan clearly conveys the purpose of the campaign: encouraging alumni, current students and their parents, staff, as well as members of the general public, organizations and enterprises that care about UM, to support the university's development through donation. Every donation to UM - whether big or small - is a far-sighted investment in Macao's higher education backed by a common goal: developing UM into a world-class university with regional characteristics.

校友會青年事務委員會的成員來自澳門大學（澳大）各學院不同學系，不同年齡層面，不同行業的畢業生所組成，朝氣勃勃，幹勁十足；就職禮上各成員均熱切期待能盡快投人會務工作，為澳大未來發展，為澳大橫琴新校區的建設，多提意見，多加支持。

按照校友會青委會的章程規定，成員須為18 - 45歲澳大的畢業生及澳大校友會的會員。從名單上來看，多位骨幹成員都是前澳大學生會的理事長或會務支柱，對參與社會事務及活動組織都有豐富的經驗，故此我等充滿信心，有關委員會能迅速開展會務及與社會各界青年團體開展活動。

參與校友會的工作都是澳大畢業生對母校的關懷及對社會事務發展的承諾和回饋，因為所有的工作都是無私和義務參與，故此希望大家能積極支持和以實際的行動實現。從周邊的校友開始，吸納更多澳大的畢業生加人會務工作，擴大團結，加強凝聚力。正如校長所言“今日你以澳大畢業為榮，他日澳大以你成就為傲”，祈為互勉。

校友會歡迎你的支持及參與，你的聲音，你的意見和建議就是我們工作改進的目標，期待你與我們第一次聯繫。

The board members of the Youth Affairs Committee of the AAAUM came from different majors of UM, age groups and working industries. All of them were vigorous and energetic. During the inauguration, all the members were looking forward to start working for the future development of UM the University and gave suggestions and support to the future development plan of the UM new campus in Hengqin.

According to the constitution of the Youth Affairs Committee, all the members have to fall within the age range of 18 to 45, have to be graduated from the UM and be members of the AAAUM. Many board members of the Youth Affairs Committee were former presidents or key members of the Student Union of the University of Macau (UMSU) and have a rich experience in joining the social affairs and organizing events and activities. We are confident that the committee will soon start to work very closely with other youth associations in community.

Every UM graduate is pledged to join the alumni association to show their concern and support to their alma mater and the development of the community. All the work done is on an unselfish and voluntary basis. We wish that everyone could support and participate actively. To expand and to strengthen the cohesive force, it would be necessary to attract more graduates to join the association starting with those around you. Just as the Rector once said, “Today you are proud of being graduates from the UM, tomorrow you will be the pride of the UM”.

Your support and participation are welcome to the alumni association. Your comments and suggestions will be the objectives of our improvement. We look forward to hearing from you.

同學會成員來自本澳不同機構、不同行業，其中不少在其所屬專業範疇上卓有所成，而最重要的是大家對自小生活的澳門懷著深厚感情和抱有熱愛，在同學會原有基礎上增添動力，發揮更大的能量，成為大家的共同意願，在水到渠成之勢下，以澳門東亞大學公開學院同學會骨幹成員創立的澳門華夏文化產業協會於2007年6月正式誕生，該會作為東亞大學公開學院同學會的延伸，為的是廣納更多志同道合之士，共同為澳門社會作出更多貢獻，繼續將同學會的獨特風格發揚下去，對有能力為澳門社會作有益之事，實有賴長達二十年來，齊心合力以堅定行動支持本會的同學們所造就的，但願新建立的澳門華夏文化產業協會可再次為同學會所有成員加上有志之士提供更廣闊的互動空間，將大家的創意及潛能發掘，並且加以發揮，成為澳門東亞大學公開學院同學會和澳門華夏文化產業協會之共同心願。

澳門華夏文化產業協會

Facing tremendous changes in Macao, the East Asia Student Association felt the need to contribute to the development of local art and creativity.

Classmates from different companies and different areas, some of whom famous in their professional areas, have turned up. Their passion and sense of belonging towards their birthplace gave support to the foundation of the alumni association. The striving to work on the same mission has driven us to the establishment of the Chinese Cultural Industries Association of Macau in June 2007 with the same group of members from the old association. This new association is an extension of the East Asia Students' Association. We aimed at attracting more participants with the same aspirations to contribute to the future development of the community and to continue with the spirit of the association. The will for contribution oriented from the job presented for the past 20 years by the original association. With the establishment of the new association, we wish to provide our members and new participants with room for interaction and bring into full play the explored proficiency and creativity. This is a common goal for both the East Asia Students' Association and the Chinese Cultural Industries Association of Macau.

澳門大學（香港）校友會聯同澳門大學校友會及澳門業餘無線電協會於2010年2月28日（星期日），假澳門大學（澳大）銀禧樓J406室，成功舉辦“兩岸四地共希望衛星通訊”澳門分場活動。出席活動包括澳大副校長（學術）何順文教授、澳門電信管理局副局長許志樑、澳門電子科學技術協會會長徐德明博士、澳門業餘無線電協會余順燊理事、澳大校友會理事長葛萬金、澳大（香港）校友會代表伍國賢、50多名校友及師生。

整項活動由中國科學技術協會、中國宇航學會及中國無線電運動協會共同主辦及統籌的。這次歷史性活動的技術含量十分高，卻由一群業餘無線電愛好者協助裝配、測試及操作。

The satellite communication between 6 cities of the Greater China was successfully held on 28 February, 2010, at J406 in the Jubilee Building. It was jointly organized by alumni locally: the University of Macau (Hong Kong) Alumni Association, University of Macau Alumni Association and the Macao Amateur Radio Association. Prof. Simon Ho, the Vice Rector (Academic Affairs) of UM, Mr. Hoi Chi Leong, the Subdirector of Bureau of Telecommunications Regulation, Dr. Michael Choi, the CEO of TEDMEV, Mr. Iu Shun Sun, the Director of Macao Amateur Radio Association, Mr. Kot Man Kam, the President of AAAUM, Mr. Ng Kwok Yin, the representative of UMHKAA, alumni and students were invited to attended the event.

The entire project was organized by China Association for Science and Technology, Chinese Society of Astronautics, China Radio Sport Association and supported by China Space Technology Group Company. The event employed state-of-the-art technology. It was installed, tuned, tested and operated by a group of enthusiastic amateur radio (Ham) operators.

At 9:15, HO-68 satellite flashed over the clear sky of the motherland. Beijing 19th Middle School was ready. Principal Yu and three students voiced out the first contact with the Nanjing main site. It was followed by Taipei, Guangzhou, Hong Kong and Macao. They exchanged greetings and transmitted graphical images through slow scan TV (SSTV). There was video coverage through Internet.

The activity promoted satellite technology with the following purposes:

First, China is keen to develop aerospace technology. To cultivate innovative spirit and development capability, interest must be started from youth.

Secondly, HO-68 satellite communication, promotes understanding and closer relationship between youths and local authorities of the 6 cities.

Thirdly, wireless technology is closely related to our daily life such as mobile communication, Bluetooth, RFID, Wi-Fi and etc. Using amateur radio to develop communication yields lower development costs.

Most importantly, UM considers science and technology to be a vital ingredient of tertiary education. With the co-operation from State-level organizations, the event was successfully held. It is in line with the direction of motherland and Macao SAR to prosper through science and technology. It is also nurturing outstanding graduates and a harmonized society.

More information about this activity and amateur radio can be browsed at www.hamfair.net.

上午9時15分當“希望一號”衛星經過祖國上空時，位於北京市第十九中學內的北京分會場沸騰了，校長余曉靈和三名學生代表在北京分會場進行了第一次通聯，南京主會場的師生代表、台北分會場的師生代表、廣州分會場的師生代表、香港分會場的師生代表及澳門分會場的師生代表分別在各會場通過“希望一號”衛星用當地方言相互問候、祝福祖國，實現首次衛星“兩岸四地”青少年間的天地對話，也透過互聯網，以視像會議顯示各分場情況。

這活動令兩岸四地青少年體會衛星通訊技術、策劃及組織，並有多重意義：

第一，中國的航天科技越來越發達，為了培養和提高青少年的創新精神和探索能力，從小樹立科學發展觀，弘揚航太精神和科技的理念。

第二，透過“希望一號”衛星，作無線電通聯，與“兩岸四地”相關單位的領導、青少年交流、互祝元宵佳節，增進兩岸四地民眾間的相互瞭解。

第三，無線電與我們的生活息息相關，例如：手提電話、藍牙、八達通、無線上網等等，利用業餘無線電研發科技，開發成本較低。

最重要是澳門大學一直非常注重科技，今次也憑澳大和各機構的支持，才能完滿成功，這也配合國家及特區政府的科技興國，和諧社會和培育優秀人才的政策。

校友故事－鄭德信博士
Alumnus Story – Dr. Thomas Tak Son Cheang

■ （右起）澳大校友鄭德信博士與董名垂教授在答辯後留影
(From right) UM alumnus Thomas Cheang and Prof. Ming Chui Dong at the end of his oral defense

我是鄭德信－畢業於澳門大學科技學院電機及電子工程系的學士、碩士及博士學位，很高興能在此跟大家分享我在澳大的學習生活。

於學士畢業後，由1993年開始我就在澳門電力股份有限公司（CEM）工作，因此當我就讀碩士及博士時，我只能以兼讀生的身份於晚間、周末及公眾假期間學習，你能想像我在這十七年內的碩士和博士兼讀生活是多麼的艱辛和勤奮。堅定目標和堅毅學習是作為一個兼讀生必需具備的條件，因此我犧牲了很多私人和娛樂的時間。

我的博士研究題目是「利用數學電機模型及人工智能非數學模型診斷技術在三相異步電機的內部錯誤的查明及定位」，並獲得“非常好及優秀”等級的成績畢業。

I am Thomas Cheang. I was a Bachelor, Master and PhD student of Electrical and Electronics Engineering of FST of UM. I am very glad to share with you my story about study life in UM.

I have been working for CEM since 1993 after I obtained my Bachelor degree. So, during my Master and PhD study, I had to be a part-time student, which means that I can only study at night, on weekends and during public holidays. You can imagine how hard and diligent I had to work in the past 17 years as a part-time Master and PhD student. Strength of mind and insistence on studying plus the permanent support from family is a necessity of being part-time student. Consequently, I have sacrificed much of my time for leisure and entertainment.

My PhD research topic was the “Math-model Based Machinery and Math-model Independent AI-based Diagnostic Technologies for Detecting and Locating the Inner-faults of Three-phase Induction Motors”. I have received the classification of “Very Good with Distinction” in final PhD defense.

UM alumnus Thomas Cheang and his wife at the Ho Yin Convention Centre of UM

我的成功並非努力學習就能實現，當然少不了很多人的無條件協助及支持，尤其是我的太太－小華！如果沒有她的諒解和支持，我根本沒可能完成這麼多挑戰性的工作並成功完成博士課程！亦希望藉此機會，對我的指導教授－董名垂教授表達最真摯的感謝，他寶貴的支持和啓發性的指導給我很大的鼓舞，他的智慧和學識鼓勵我細心地去研究學習上的每個細節。此外，我想特別多謝澳大副校長（研究）馬許願教授及著名學者（中國科學院院士）韓英鐸教授對我學習的寶貴意見和支持，以及學院對我的支持和體諒，這是為什麼我這麼熱愛我的母校－澳門大學。

在過去十年內，我是澳門首批工程師申請國際及國家的工程師專業認證，經過多個專業及學術考試及面試，我很高興考獲了英國皇家特許工程師（CEng）、中國註冊高級工程師、英國營運工程師的資深會員和電機及電子工程師學會高級會員資格等。

現在我很有信心憑我鞏固的學術基礎和工程的經驗，定能為澳門社會的現代化繼續努力，例如發展將來的智能電網等。我希望堅持及永不放棄的精神能值得各人學習，我衷心的感謝我的母校－澳門大學，希望她將來能更美好的發展。

My success is not only due to my hard work, but also relies on the unconditional assistance and support from many good people. Special thanks to my wife – Ann! Without her understanding and greatest support, nobody can continue for such a long time to complete so many challenging tasks and finally climb to the top of the PhD mountain! I would like to express my sincere appreciation to my supervisor, Prof. Ming Chui Dong, for his valuable and inspiring guidance, and strong encouragement during my study. The wisdom of his methodology has encouraged me to think over all the details of my study. On the other hand, I would like to specially thank our Vice Rector (Research), Prof. Rui Paulo da Silva Martins, and Academician Prof. Ying Duo Han, as they have provided me with very helpful comments and support for my study. Also the faculty has given me a lot of support and understanding. This is the reason why I really love my mother university – University of Macau.

During the last 10 years, I also applied for the International and Domestic Engineering Charterships as the first batch in Macao. I have made the effort to take several examinations and have interviewed with professionals and academics to receive my Engineering Charterships. Being a graduate of UM, I am more than glad to be recognized by being Chartered Engineer of United Kingdom (CEng), Chinese Registered Senior Engineer, Fellow member of Society of Operation Engineer, and Senior Member of IEEE, etc.

Now, I am confident to say that my solid academic background and practical engineering experiences can definitely support the modernization of Macao society; for example, a "smart grid" in the future. I hope that my determination and spirit of never giving up can be a worthy lesson for everyone. Sincerely I would like to express my deep thanks to my mother university --- UM again and wish her blooming in future!
