01.

Problem - Confused where to go?

There are approximately 187,000 hotels worldwide. How I am supposed to know which one to choose in order to reach the career development I want and at the same time to be in peace with myself and to feel well there?

02.

Problem- I dont have money

We were students back then, and our job was only studying. We did not have any spare money and the options, which were made to us from various educational agents were quite expensive.

Problems we solve **02.**

Affordable Quality

Affordable to everyone

Our enormous network and strong connections worldwide give us the opportunity to maintain the lowest administrative price at the educational market among agencies and organizations. Even better- we have **100% money back guarantee policy**-In case The Placement Lab fails to arrange a placement within 12 weeks from the date you paid the Administrative fee ,you will receive **100% of the Administrative fee back minus the bank transaction taxes.**

Problems we solve

Strong contacts

03.

Problem - Lack of communication

It was so hard for us to obtain a feedback after we performed huge amount of interviews with different hotels. The HR managers were ignoring us, did not pick their phones and thus we lost valuable time waiting. It was even worse when we have been rejected without even telling us why.

03.Solution

It is easy to get discouraged during the internship hunt especially when you do not hear back from the interviewers with the feedback you need to receive. Don't take it personally. The Placement Lab will follow up with all the hotels on your behalf. You will not waste your time anymore.

Problems we solve

Long-term goals

04.

Problem - What`s next?

We were lucky enough to find an internship, well done. However our parents were keep asking us: What are you going to do after your internship? What are your plans in 6 months, 12 months when you finish? The stress were more than enough while looking for internship, but these questions were too much. Do your parents ask you the same questions? Do you feel the same way we felt then- overwhelmed ?

04.Solution

89% of the Placement Lab applicants receive a full time job offer after completing their internship. We have negotiated special conditions for you in case you would like to continue as a full time employee within the company :)
